Guardian of Indoor Air, Cyber Physical EcoSystem

E TREND MARKETING SDN BHD

GiA

E Trend Marketing Sdn Bhd

Core Value

sales, construction and maintenance management of indoor air quality system

GiAAir Quality

- GiA Cyber Physical EcoSystem (GiA CPES)
- GiA Smart Indoor Air Quality Sensing Controller
- Data Analysis and Maintenance Management
- Equipment Development and Cooperation
- Project Improvement

GIA

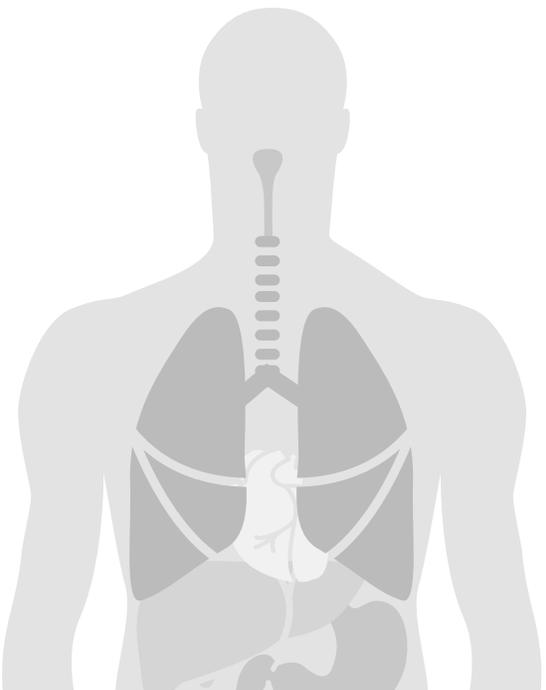

What is a healthy environment

- Zero Formaldehyde
- No PM2.5
- No mold
- Right Temperature and Humidity,
- Fresh Air Introduction (Diluted CO₂)

Improvement method of air quality

- Detection
- Filtration
- Dilution

Taiwan's Top 10 Cancers

- Particles Pollution

Indoor Air Quality Pollution

Source 《Sick-House Consultants》

Source	Name	Source of Occurrence	Health Effects
Chemical Pollution	CO ₂	School, After-Class School, Store, Library, Cinema, Gym, Office	Dizziness, Reduced Learning Ability
	HCHO	Decorating Home, Office, Market, Toys, Furnitures, Painting	Spasm, Hyposmia, Decreased Consciousness, Sneezing, Have the Chills, Dermatitis, Epistaxis, Aggressive, Restlessness, Tongue Paralysis, Leukemia, Lung Cancer, Carcinogenicity
	TVOC	Decorating Home, Office, Market, Toys, Furnitures, Painting	Stinging Eyes or Fatigue, Stimulate the Lungs, Strong irritation to skin and mucous membrane Apnea, Asthma, Sore Throat, Headache, Cough, Chest Pain, Nausea, Conjunctiva Hyperemia, Dizziness
	CO	Incomplete combustion of gas, Gas Leaks	Carbon Monoxide Poisoning, Headache, Nausea, Dyspnea
	OZONE	Ozone-Producing Machine, Printer	Irritation to eyes and respiratory tract and affect on lung function including possibility of triggering asthma.
Particles Pollution	PM _{2.5}	Outdoor Air Pollution, Cooking, Smoking, Mosquito Coil Incense	Bronchitis, Pneumonia, Pulmonary edema, Lung cancer, Lung Adenocarcinoma, Cardiovascular Disease, Asthma, allergies
	PM ₁₀		
Biotype Pollution	Fungi	Wet Area (Counter, Kitchen, Bathroom, Corner, Walk-in Closet, Tatami)	Fungal disease, Mycotoxin Poisoning, Fungal Allergy, Liver Cancer, Lung Cancer, Kidney Failure, Hematopoietic Damage
	Bacterial	Confined space with crowds, Hospital, School	Cold, Viral Infection, SARS
	Virus		

GiA

Guardian of indoor Air

Smart Indoor Air Quality Sensing Controller

GiA

- The world's most comprehensive 12-in-1 air quality detector.
- Diversity communications interface connecting device, including 802.11, Ethernet, RS485 communications interface.
- Manual mode of purification equipment, automatic mode, situational mode.
- Outdoor air quality display & push notification of bad air quality.
- Providing mobile phone APP to remotely monitor home air quality and purification equipment operation.

GIA

Certification

- NCC Number: CCAH18LP1800T8
- FCC Number: 2APZX-GIA-K007
- TAF Certification Temperature, Humidity
- Taipei Tech Certification PM2.5、CO2、TVOC、HCHO、CO
- Smart Indoor Air Quality Sensing Controller Design Patent: D198716
- Smart Indoor Air Quality Sensing Controller China Design Patent: ZL 2018 3 0385694.4
- The Control System of Modular Air Quality Utility Model Patent: M567857
- The Control System of Modular Air Quality China Utility Model Patent: ZL 2018 2 1101657.7

Why do we need GiA

Pollution of a building includes 3 categories

1. Pollution from the building
 2. Pollution from internal decoration
- Known Pollution

3. Pollution from the residents, such as: Detergents, Cosmetics, Pets, Incense Burning, Smoking etc.
Unknown Pollution

Detection and relevant data are necessary for searching the correct improvement method.

GiA

Points to be taken into consideration for ventilation planning

- Grasping wind direction
- Avoiding setting at downstream of the exhaust gas
- Avoiding possible pollution source of neighborhood
- Equipment with ventilation volume suitable for the person number
- Correct piping and tubing

Importance of ventilation

- Dilution of indoor pollutants
- Keeping comfortable and warm feeling
- Cutting part of heat load
- Removal of indoor pollutants
- Maintaining respiratory demand

置: 14樓行政組(內有印表機3部)

加強室內通風換氣, 降低TVOC逸散濃度。
少, 汽車廢氣、噪音影響較小的時間點開窗通風, 其餘
維持室內良好之通風換氣。

功能之空氣清淨機, 以降低該環境之TVOC濃度。

置: 14樓礦區拓展處(附近無影印機, 為14樓東測參考點)

健康的關係是非常密切, 長期處於高濕度環境下, 容易
疾病。

扇與空調系統, 以保持室內溫濕度平衡。

Push notification function can be provided by the APP

Primary Filter

PM2.5 Filter

Healthy indoor air requires

1. Precise, multi-functional and continuously monitoring instrument
2. Well-established ventilation
3. Equipment suitable for the space
4. Excellent construction team
5. Maintenance and management on cloud data
6. Periodic home environment diagnosis report, maintenance and management

GiA

GiA Cyber Physical EcoSystem (GiA CPES)

Health: Prevention precedes over treatment

Energy Saving: introduction of fresh and good air to replace air conditioning

Electricity Saving: if ventilation equipment of Model 250m³/h is used, electricity charge is about NTD 150 per month

Environmental Protection: release of CO₂ will be reduced

Management with Big Data at Cloud: to promote the Application Program of Internet of Things for Air Quality in Taiwan

Health Diagnosis Report: to propose relevant solutions so as to reduce the population of allergy and lung cancer

100%

臺灣製造

支持MIT產品

GiA × CPES

GiA Cyber Physical EcoSystem

- Building an integrated GiA cyber physical ecosystem
- Implementing intelligent environment cleaning control plan
- Prevention precedes over treatment
- Caring for family health
